BCA -First Semester

COMPUTER FUNDAMENTALS AND PROGRAMMING IN 'C' (BCA-101)

Time: 3 hrs

Max Marks: **75**

No. of pages: 2

Note: Attempt **FIVE** questions in all; **taking at least ONE question** from each Unit.
Q.1 is compulsory. All questions carry equal marks.

- Q.1
- MICR stands for:
 - Magnetic ink character reader
 - Magnetic ink code reader
 - Magnetic ink cases reader
 - None of the above.
 - Which operation is not performed by a computer?
 - Inputting
 - Processing
 - Controlling
 - Understanding
 - The binary equivalent of 74 is:
 - 1001011
 - 1001010
 - 1010101
 - 1001101
 - Which of the following is not a logical operator?
 - &
 - &&
 - !!
 - !
 - Which of the following can't be checked in switch case?
 - Character
 - Integer
 - Float
 - enum
 - Nested structures are allowed in 'C':
 - Yes
 - No
 - Which of the following are unary operators in 'C'?
 - !
 - sizeof
 - ~
 - &&
 - Name any two first generation computers:
 - _____ is the father of computer.
 - CD-ROM stands for _____.
- 1½x10**

UNIT-I

- Q.2
- Explain any five input devices. **10**
 - What is the difference between computer and human being? **5**
- Q.3
- Explain any three output devices. **6**
 - Compute the following: $(11011.1101)_2 = (?)_{10} = (?)_8 = (?)_{16}$ **9**

UNIT-II

- Q.4
- What are various problem solving approaches? Explain them with their advantages and disadvantages. **10**
 - Draw a flowchart to find out sum of n natural numbers. **5**
- Q.5
- Differentiate between:
 - Primary and secondary memory
 - Algorithm and flowchart
- 7½x2**

UNIT-III

- Q.6 a) Write a program to find reverse of a number and check whether it is palindrome or not? **10**
b) What are various tokens available in 'C'? **5**
- Q.7 a) What do you mean by preprocessor directive? **5**
b) What are various operators available in 'C' language? **10**

UNIT-IV

- Q.8 a) What do you mean by array? What are its advantages and disadvantages? **10**
b) Explain any two library functions in detail. **5**
- Q.9 What is the difference between call-by-value and call-by-reference? Write a program to swap two numbers using both call-by-value and call-by-reference. **15**

End Semester Examination, May 2015
BCA -First Semester
ELEMENTS OF MATHEMATICS (BCA-102)

Time: 3 hrs

Max Marks: **75**

No. of pages: 2

Note: Attempt **FIVE** questions in all; **taking at least ONE question** from each Unit.
Q.1 is compulsory. All questions carry equal marks.

- Q.1
- In a throw of dice, what is the probability of getting number greater than 5?
 - If a set A has n elements, then the total number power set of A is _____.
 - Find the 7th term of sequence 2, 4, 6, 8 _____.
 - What is the value of $\sin \frac{3\pi}{2} + \cos \frac{2\pi}{3}$.
 - If $\sin(x+20) = \cos x$, find the value of x .
 - The value of $\log_5(1/125)$ is _____.
 - If $\log_{32} x = 0.8$, then x is equal to _____.
 - If we differentiate: $y = \frac{x^4}{4} + 2x^2$, we get _____.
 - Evaluate: $\int (5x^2 - 4x + 6) dx$
 - The general term of G.P. is _____.
- 1½x10**

UNIT-I

- Q.2
- In a group of 65 people, 40 like cricket, 10 like both cricket and tennis. Find:
 - How many like tennis
 - How many like tennis only and not cricket.
 - Sum the series $0.3 + 0.33 + 0.333 + \dots$ to n terms.
- Q.3
- The 5th term of a G.P is $\frac{1}{3}$ and 9th term is $\frac{16}{243}$. Find the 4th term.
 - Find the domain and range of the following functions:
 - $y = \frac{x^2 - 1}{x - 1}, x \neq 1$
 - $y = \sqrt{x}$

UNIT-II

- Q.4
- Prove that $\sin^4 \theta - \cos^4 \theta = \sin^2 \theta - \cos^2 \theta$
 - Solve for $x \log(4x - 3) = \log(x + 1) + \log 3$
- Q.5
- Prove that $7 \log \frac{16}{15} + 5 \log \frac{25}{24} + 3 \log \frac{81}{80} = \log 2$
 - In a bag, there are 100 bulbs out of which 30 are bad ones. A bulb is taken out of bag at random. Find the probability of the selected bulb to be good.

UNIT-III

- Q.6
- Evaluate: $\lim_{x \rightarrow a} \frac{(x+2)^{5/3} - (a+2)^{5/3}}{x-a}$

b) If $y = \sqrt{1+x^5}$; Prove that $\frac{dy}{dx} = \frac{5x^4}{2y}$ **8**

Q.7 a) For what value of k is the following function continuous at $x = 4$:

$$f(x) = \begin{cases} \frac{x^2 - 16}{x - 4} & \text{if } x \neq 4 \\ k & \text{if } x = 4 \end{cases} \quad \mathbf{7}$$

b) If $y = (x - \sqrt{1+x^2})$; Prove that: $(1+x^2)\left(\frac{dy}{dx}\right)^2 = y^2$ **8**

UNIT-IV

Q.8 a) Evaluate $\int \frac{\sin x}{(1 + \cos x)^2} dx$ **7**

b) Solve the differential equation $\frac{dy}{dx} = x \log x$ **8**

Q.9 a) Solve the differential equation $\frac{dy}{dx} = \frac{y-x}{y+x}$ **8**

b) What is Algebraic structure? Explain Groups and Rings with examples. **7**

End Semester Examination, May 2015
 BCA -First Semester
BUSINESS COMMUNICATION-I (BCA-103)

Time: 3 hrs

Max Marks: **75**

No. of pages: 2

Note: Attempt **FIVE** questions in all; **taking at least ONE question** from each Unit.
Q.1 is compulsory. All questions carry equal marks.

Q.1 **Choose / fill the correct option:**

- a) Communication starts with
 - i) Message
 - ii) Sender
 - iii) Channel
 - iv) Feedback
- b) The two broad areas of communications are:
 - i) Oral and written communication.
 - ii) Verbal and written communication.
 - iii) Verbal and non-verbal communication.
 - iv) Oral and non-verbal communication.
- c) Which of the following are examples of written communication?
 - i) Letters and Voicemail
 - ii) Reports and email
 - iii) Circulars and voicemail
 - iv) Presentations and email.
- d) All the following are external stakeholders of an organization, except:
 - i) Media
 - ii) Government
 - iii) Suppliers
 - iv) Shareholders
- e) Readability is determined mainly by:
 - i) Punctuation
 - ii) Length of words
 - iii) Active and passive voice
 - iv) Spelling
- f) Writing style can be improved through use of:
 - i) Jargon
 - ii) Slang
 - iii) Simple words
 - iv) Metaphors
- g) One advantage of telephone communication is:
 - i) Good for problem solving
 - ii) Permits use of some non-verbal cues
 - iii) conveying large amount of information
 - iv) Keeping a permanent record
- h) All of the following types of information can be posted on the intranet except:
 - i) Employee benefits
 - ii) Declared holidays
 - iii) Company policies
 - iv) Performance appraisals
- i) Which of the following is not a compulsory part of a business letter?
 - i) Salutation
 - ii) Close
 - iii) Attention line
 - iv) Body
- j) A resume summarizes the following:
 - i) Strengths and weaknesses
 - ii) Personality
 - iii) Education and experience
 - iv) Hobbies

1x15

UNIT-I

Q.2 Choose correct option:

- a) She looks _____ than she is.
 - i) much younger
 - ii) very younger
 - iii) more young
 - iv) more younger
- b) We were caught _____ a shower on our way home:
 - i) in
 - ii) with
 - iii) at
 - iv) by
- c) Policy, is, the, Honesty, best. (Rearrange to form a meaningful sentence)
- d) Godliness, to, cleanliness, is (Rearrange to form a meaningful sentence)
- e) It may _____ in the afternoon. (raining/rained/rain)

- f) Boy:Girl::man: _____
 g) "_____do you live?" _____ in India.(Fill up)

- h) "_____ do you come to school?" _____ by bus. (Fill up)
 i) The antonym of spendthrift is _____.
 j) The synonym of honest is _____.
 k) Full form of ISDN is _____.
 l) Full form of ERP is _____.
 m) He _____ from London. (be/ is/ am/ are)
 n) What is _____ dog called? (him/ her/ them/ you)
 o) _____ English? (Do you be/ You are/ Are you/ Is you) **1x15**

- Q.3 a) Fill in each of the blanks with the correct form of present tense:
 i) Janet _____ Karate class every Saturday. (attend)
 ii) The market _____ usually noisy in the morning. (to be)
 iii) Aanya _____ her room for the past hour. (Paint)
 iv) The delivery man _____ the parcel already. (delivery)
 v) You are late. The bus _____ already. (leave) **1x5**
- b) Convert to questions:
 i) They are working hard.
 ii) They will be working hard.
 iii) They had worked hard.
 iv) They have been working hard. **1x4**
- c) Rearrange the words and phrases to form meaningful sentence:
 i) Last / the / week / President / Obama / of / the / USA / India / visited.
 ii) He / the / went / Humayun's / to / tomb / see / with / his.
 iii) He / time / spent / with / some / the / street / in / children / an / NGO. **2x3**

UNIT-II

- Q.4 a) Write your first experience when you visited the collage for the 1st time and the conversation in the form of dialogues you had in Admission Cell. **8**
 b) You have to organize a business trip to Goa. Mention the conversation between the different managers for the same in the form of dialogue. **7**
- Q.5 a) Mention basic etiquettes that need to be followed while conversing either at college or outside college. **8**
 b) "People who know how to talk can easily win over hearts". Explain **7**

UNIT-III

- Q.6 How do you define personality? What are its determinants and types? **15**
- Q.7 a) "Goal set is goal half achieved". Do you agree with this? Justify your opinion. **8**
 b) Who is a facilitator? What are the key roles performed by him? **7**

UNIT-IV

- Q.8 a) Why do we have to design resumes with caution? What are the basic points under consideration while designing resumes? **8**
 b) Design your resume with the cover letter for the post of Software Engineer in ABC Company Ltd. **7**

- Q.9 a) Why does an organization conduct interviews? What are the different types of interviews? **8**
- b) Explain the role of communication technology in the workplace. **7**

End Semester Examination, May 2015

BCA -First Semester

PC SOFTWARE (BCA-104)

Time: 3 hrs

Max Marks: **75**

No. of pages: 1

Note: Attempt **FIVE** questions in all; **taking at least ONE question** from each Unit.
Q.1 is compulsory. All questions carry equal marks.

- Q.1
- The collection of readymade pictures is called _____.
 - We can change the styles of a shape using _____ tab.
 - The file extension of EXCEL workbook is _____.
 - Print review is used for _____.
 - Ctrl+s key is used for _____.
 - DOS means DISK OPERATING SYSTEM. (**True/False**)
 - All the files in a folder should have same name. (**True/False**)
 - WORD can check grammar while checking grammar. (**True/False**)
 - Define macro.
 - Define screen saver.

1½x10

UNIT-I

- Q.2
- Explain file management through Windows. **7½**
 - Explain Five external commands in DOS. **7½**
- Q.3
- Write short not on Windows Accessories. **7**
 - Define operating system. Discuss the types of operating system. **8**

UNIT-II

- Q.4
- Create a list of 10 best friends. Create a thank you letter. Use mail merge feature of MS word to create thank you letter for each of your friend from above two files. **10**
 - How text is formatted in MSWORD? **5**

Q.5 Define the following terms:

- | | | |
|-------------|---------------|------------------------|
| i) LINKS | ii) Headnotes | iii) Header and footer |
| iv) WIZARDS | v) Tables | |

5x3

UNIT-III

- Q.6
- Explain any five mathematical functions in MS-EXCEL. **10**
 - Discuss the concept of Freeze Panes in MS-EXCEL. **5**
- Q.7
- Explain the following:

i) Creating a workbook	ii) Opening a workbook
iii) Saving a workbook	iv) Creating and inserting a worksheet
v) Deleting a worksheet	
 - Discuss any two date and time functions. **5**

10

5

UNIT-IV

- Q.8
- How MS-PowerPoint is a better option for a business presentation? Discuss. **6**
 - Discuss the various types of views in MS-PowerPoint. **9**

- Q.9 a) Write the steps for the following:
- i) Checking spelling and correcting with objects.
 - ii) Adding clipart and other pictures.
 - iii) Printing presentation.
- b) Write the benefits of PowerPoint presentation.

3x3

End Semester Examination, May 2015

BCA -Second Semester

DATA STRUCTURES (BCA-201)

Time: 3 hrs

Max Marks: **75**

No. of pages: 2

Note: Attempt **FIVE** questions in all; **taking at least ONE question** from each Unit. **Q.1 is compulsory**. All questions carry equal marks.

Q.1 Fill in the blanks:

- a) A stack is an ordered list in which all insertion and deletion are made at one end, called _____.
- b) Queue is a _____ list.
- c) The complexity of linear search algorithm is _____.
- d) The operation of processing each element in an array is _____.
- e) The complexity of bubble sort is _____. **1½x5**

Multiple choice questions:

- f) When new data are to be insisted into a data structure, but there is no available space, this situation is called:
 - i) Underflow
 - ii) Overflow
 - iii) Houseful
 - iv) Saturated
- g) The largest element of an array index is called its:
 - i) Lower bound
 - ii) Upper bound
 - iii) Range
 - iv) None of the above.
- h) The depth of complete binary tree is given by:
 - i) $n \log_2 n$
 - ii) $n \log_2 n + 1$
 - iii) $\log_2 n$
 - iv) $\log_2 n + 1$
- i) The size of a problem is measured in terms of:
 - i) Output
 - ii) Input
 - iii) Level of problem
 - iv) Complexity
- j) Which of the following sorting procedure is the slowest?
 - i) Quick sort
 - ii) Heap sort
 - iii) Shell sort
 - iv) Bubble sort**1½x5**

UNIT-I

- Q.2 a) What do you mean by an algorithm? How can we measure the efficiency of an algorithm? **8**
 b) Write algorithm to find largest and second largest element from a list. **7**
- Q.3 a) What do you mean by a circular queue? What are the advantages of circular queue over linear queue? Justify your answer. **8**
 b) Convert the following infix notation into postfix notation:
 $A * (B + C * D) + E$
 Also write an algorithm for the same. **7**

UNIT-II

- Q.4 a) Write recursive algorithm for a binary search. Why binary search is better than linear search? Justify your answer. **10**
 b) Write a short note on doubly linked list. **5**
- Q.5 a) Write an algorithm for inorder traversal. **5**
 b) Write a short note on binary tree. **5**
 c) How can we represent a polynomial using a linked list? **5**

UNIT-III

- Q.6 Write algorithm for merge sort. **15**
- Q.7 What are the various ways to represent a graph? Explain with the help of an example. **15**

UNIT-IV

- Q.8 a) What are the various file operations? **8**
b) What are the various collision resolution methods? Explain with example. **7**
- Q.9 a) What do you mean by Index Sequential Access Method (ISAM)? **5**
b) Differentiate between fixed and variable length record. **5**
c) Hash function **5**

End Semester Examination, May 2015
BCA -Second Semester
MATHEMATICAL FOUNDATION OF COMPUTER SCIENCE (BCA-202)

Time: 3 hrs

Max Marks: **75**

No. of pages: 3

Note: Attempt **FIVE** questions in all; **taking at least ONE question** from each Unit. **Q.1 is compulsory**. All questions carry equal marks.

- Q.1
- Define cardinality of a set with an example.
 - If $P = \{a, b, c\}$ and $Q = \{k, l, m, n\}$, determine $P \times Q$.
 - If $A = \{\phi, a\}$, construct $A \cup P\{A\}$.
 - Explain the working rule of mathematical induction.
 - If a set A has n elements, how many relations are there from A to A .
 - If $X = \{1, 2, 3\}$, $Y = \{8, 9\}$ and $R = \{(1, 8), (2, 8), (1, 9), (3, 9)\}$, find \bar{R} .
 - The sum of degree of all the vertices in a graph G_1 is even. (True / False)
 - Define path and circuit in graph.
 - Define complete binary tree with an example.
 - Consider the set $A = \{4, 5, 6, 7\}$. Let R be the relation \subseteq of A . Draw the Hasse diagram of R .
- 1½x10**

UNIT-I

- Q.2
- Let $X = \{a, b, c\}$. Define $f : X \rightarrow X$ such that $f = \{(a, b), (b, a), (c, c)\}$. Find:
 - f^{-1}
 - f^2
 - f^3
 - Prove that $1.2 + 2.3 + 3.4 + \dots + n(n+1) = \frac{n(n+1)(n+2)}{3}$ by mathematical induction.
- 6**
9
- Q.3
- Describe equivalence relation briefly. **5**
 - Let R be a binary relation on the set of all integer I such that:
 $R = \{(a, b) \mid (a - b) \text{ is even integer}\}$. Is R reflexive? Symmetric? Transitive? Equivalence relation? **5**
 - Prove that by mathematical induction $n(n+1)(2n+1)$ is divisible by 6. **5**

UNIT-II

- Q.4
- Consider the set $D_{50} = \{1, 2, 5, 10, 25, 50\}$ and relation divides ($/$) be a partial ordering relation on D_{50} .
 - Draw Hasse diagram of D_{50} with relation divides.
 - Determine all upper bounds of 5 and 10.
 - Determine all lower bounds of 5 and 10.
 - Determine g.l.b of 5 and 10
 - Determine l.u.b of 5 and 10
 - Define sublattice. Consider the lattice of all positive integer I , under the operation of divisibility. The lattice D_n of all divisor of $n > 1$ is a sublattice of I_+ . Determine all the sublattice of D_{30} that contain at least four elements
 $D_{30} = \{1, 2, 3, 4, 5, 6, 10, 15, 30\}$ **10**

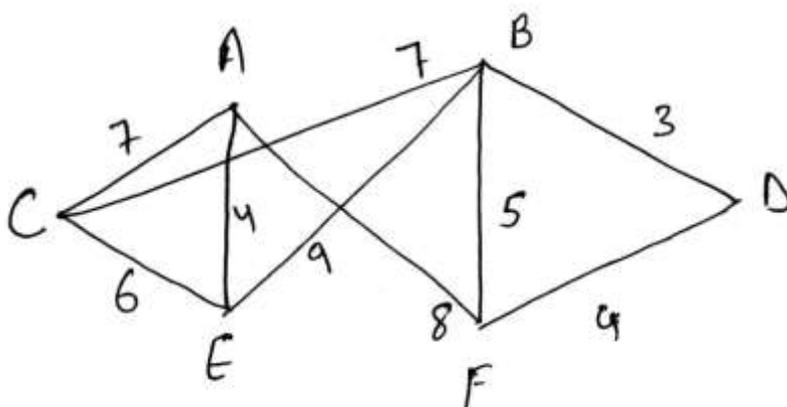

- Q.5 a) Given the Boolean expression: $f = ABC + B\bar{C}D + \bar{D}BC$
 i) Make the truth table. ii) Simplify using K-map **8**
 b) Consider the Boolean algebra D_{30} , determine the followings:
 i) All the Boolean subalgebra of D_{30}
 ii) All Boolean algebras which are not Boolean subalgebra of D_{30} having atleast four elements. **7**

UNIT-III

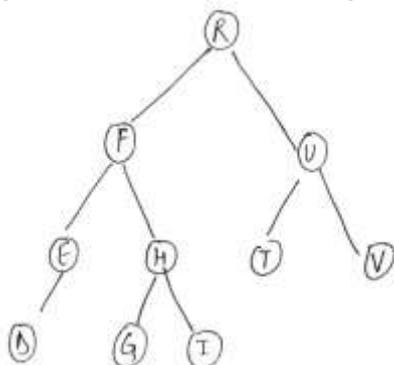

- Q.6 a) Find the equation of a line passing through the point $(2,3)$ and making an angle of 45° with the line $3x + y - 5$. **7**
 b) Solve the differential equation $a_r - 7a_{r-1} + 10a_{r-2} = 0$, satisfying the conditions $a_0 = 0$ and $a_1 = 6$. **8**
- Q.7 a) Two points $A(0,0)$ and $B(3,\sqrt{3})$ form an equilateral triangle with another point $P(x,y)$. Find the coordinate of P . **8**
 b) Solve the differential equation: $2a_r - 5a_{r-1} + 2a_{r-2} = 0$ and find particular solution such that $a_0 = 0$ and $a_1 = 1$. **7**

UNIT-IV

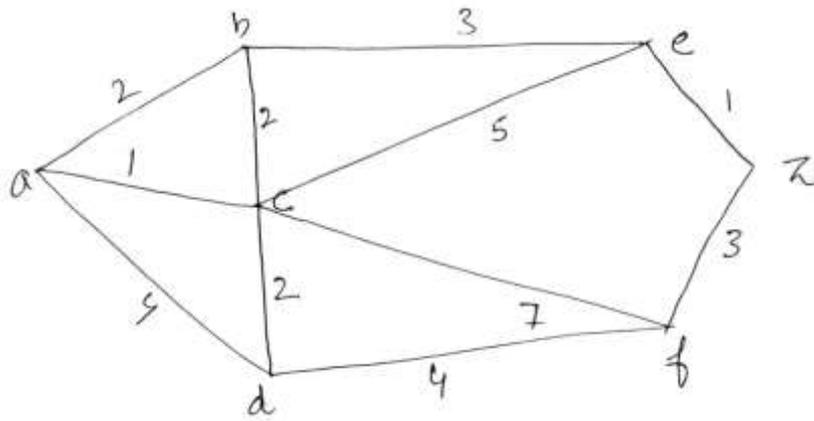

- Q.8 a) Find the minimum spanning tree of the labeled connected graph.

- b) Consider the binary tree as shown below. Draw the binary tree for each of the following operations if applied to the binary tree. Also draw the undirected graphs K_3 and K_5 .
 i) Delete the node V ii) Delete the node E iii) Delete the root node R

Q.9 Find the shortest path between a to z in the graph.

15

End Semester Examination, May 2015
BCA -Second Semester
PROGRAMMING IN VISUAL BASIC (BCA-203)

Time: 3 hrs

Max Marks: **75**

No. of pages: 1

Note: Attempt **FIVE** questions in all; **taking at least ONE question** from each Unit.
Q.1 is compulsory. All questions carry equal marks.

- Q.1 a) One of the major strength of Visual Basic language is _____.
 b) _____ and _____ are procedural languages.
 c) Integer data type takes _____ bytes.
 d) Static variables are _____ only once.
 e) _____ is an example of string function.
 f) _____ is a conditional statement.
 g) The reference library of Visual Basic is called _____.
 h) Menus are created using _____ in Visual Basic.
 i) _____ function converts string to numerical value.
 j) In _____ only one option can be selected at a time.

1½x10

UNIT-I

- Q.2 Explain the use of following terms:
 a) Menu Bar b) Tool Bar c) Tool Box **5x3**
- Q.3 Explain all the components of Visual Basic IDE (Integrated Development Environment) in detail. **15**

UNIT-II

- Q.4 Explain the following data types in Visual Basic:
 a) String b) Integer c) Variant **5x3**
- Q.5 a) Explain the two conditional statements available in Visual Basic with the help of examples. **10**
 b) Explain the difference between local and static variables using an example. **5**

UNIT-III

- Q.6 Explain the following controls in Visual Basic:
 a) Text Box b) List Box c) Frame **5x3**
- Q.7 Differentiate between the followings:
 a) List Box and Combo box
 b) Check Box and Option Button
 c) Label and Text Box **5x3**

UNIT-IV

- Q.8 Explain all the steps required to create a menu using menu editor in Visual Basic. **15**
- Q.9 Explain the following terms:
 a) Data Control b) Data Grid Control c) Data Report. **5x3**

End Semester Examination, May 2015

BCA -Second Semester

WORKSHOP IN EVS (BCA-206)

Time: 3 hrs

Max Marks: **50**

No. of pages: 2

Note: Attempt **FIVE** questions in all; **taking at least ONE question** from each Unit. **Q.1 is compulsory**. All questions carry equal marks.

Q.1 Choose the correct option:

- a) If waste materials contaminate the source of drinking water which of the following diseases will spread:
 i) Scurvy ii) Typhoid iii) Malaria iv) Anaemia
- b) Which of the following wastes cannot be decomposed by bacteria to form compost?
 i) Kitchen waste ii) Plastic and polythene bags
 iii) Dead plants iv) Bodies of insects living in the soil
- c) When trees are cut, amount of oxygen?
 i) Decreases ii) Increases
 iii) Both a and b iv) Remains same
- d) 71% of earth surface is covered with:
 i) Land ii) Air
 iii) Water iv) Coal
- e) Acid rain is due to:
 i) Combustion of fossil fuels ii) Oil slick
 iii) Oxides of sulphur iv) Nuclear wars
- f) The gas associated with global warming is:
 i) CO₂ ii) H₂S
 iii) CH₄ iv) SO₂
- g) Which of these is biodegradable?
 i) Cow dung ii) Pepsi can
 iii) Plastic rubber iv) CDs
- h) Female sterilization inhibits _____ production.
 i) Egg ii) Estrogen
 iii) Progesterone iv) All of the above
- i) Bhopal gas tragedy occurred due to:
 i) Methane ii) Phosgene
 iii) Methyl isocyanate iv) Methyl amine
- j) Who started the Chipko movement?
 i) Kiran Bedi ii) S.L. Bahuguna
 iii) Medha Patkar iv) None of the above

1x10

UNIT-I

- Q.2 a) Why do people need to be aware about environmental issues? **5**
 b) Differentiate between renewable and non-renewable sources of energy. **5**
- Q.3 a) Explain why environmental studies is made as mandatory or essential subject in the syllabus. **5**
 b) How can we help and save environment? Explain in detail. **5**

UNIT-II

- Q.4 a) Illustrate how energy flows in an ecosystem with an example. **5**
 b) What is a food chain? How does a food chain get effected when one of the trophic level is disturbed? **5**
- Q.5 a) Differentiate between producers, consumers and decomposers. **5**
 b) What is ecological pyramid? Mention atleast two types. **5**

UNIT-III

- Q.6 a) What do you mean by pollution? Name its different types and the two major causes for each type of pollution. **5**
 b) Mention the major reasons for global warming and climate change. **5**
- Q.7 Write short notes on **any two:**
 a) Unsustainable and sustainable development.
 b) Wasteland reclamation.
 c) Environmental Protection Act. **5x2**

UNIT-IV

- Q.8 a) Illustrate the role of information technology in environment and human health. **5**
 b) What are the major causes of AIDS? Mention various symptoms and effects of AIDS. **5**
- Q.9 a) How can we control population explosion? Why do we need to control it? **5**
 b) Explain how increase in human population is causing increase in environment pollution. **5**

End Semester Examination, May 2015

BCA -Third Semester

MATHEMATICS-II (BCA-301)

Time: 3 hrs

Max Marks: **75**

No. of pages: 2

Note: Attempt **FIVE** questions in all; **taking at least ONE question** from each Unit. **Q.1 is compulsory**. All questions carry equal marks.

Q.1 a) If order of A is MXP and order B is PXN then order of AB is _____.

b) If $A = \begin{bmatrix} 5 & 3 & 2 \\ 0 & 4 & 1 \\ 0 & 0 & 3 \end{bmatrix}$ find $|A|$.

c) In how many ways can the letters of the word PRAISE be arranged?

d) Formula of general term in binomial expansion is _____.

e) Define monotonic increasing function with an example.

f) Define supremum and infimum of set with an example.

g) Find the convergence of sequence $\langle u_n \rangle = \frac{8n-3}{2n+1}$.

h) What is the limit of a sequence $\{S_n\} = \left\{ \frac{1}{n}; n \in \mathbb{Z}^+ \right\}$

i) Define the criteria for consistency of a system of linear equations.

j) Inverse of every square matrix, if it exists is unique (**True/False**). **1½x10**

UNIT-I

Q.2 a) Verify that $A(B+C) = AB+BC$ where $A = [1 \ 2]$; $B = \begin{bmatrix} 1 & 2 & 3 \\ 0 & 4 & 5 \end{bmatrix}$ and $C = \begin{bmatrix} 1 & 0 & 1 \\ 2 & 3 & 0 \end{bmatrix}$.

8

b) Evaluate: $6C_1 + 6C_2 + 6C_3 + 6C_4 + 6C_5 + 6C_6$.

7

Q.3 a) Find the coefficient of x^4 in $\left(x^4 + \frac{1}{x^3}\right)^{15}$.

8

b) Out of 7 consonants and 4 vowels, how many words of 3 consonants and 2 vowels can be formed?

7

UNIT-II

Q.4 a) Prove that all real numbers in the interval $[0 \ 1]$ is uncountable. **7**

b) Find the least upper bound and greatest lower bound of the followings:

i) $\{x: -5 < x < 2\}$

ii) $\left\{ \frac{1}{5n}; n \in \mathbb{Z}, n \neq 0 \right\}$

iii) $\left\{ x: x = 1 + \frac{1}{n}, n \in \mathbb{N} \right\}$

iv) $\left\{ x = 1 - \frac{1}{n}; x \in \mathbb{N} \right\}$

2x4

Q.5 a) Prove that the union of 2 countable sets is countable. **8**

b) Prove that union of an arbitrary family of open sets is an open set. **7**

UNIT-III

Q.6 a) State and prove Cauchy's general principle of convergence. **8**

b) Prove that a monotonically increasing sequence $\langle U_n \rangle$ bounded above converges to its least upper bound. **7**

Q.7 a) Discuss the convergence of the sequence $\langle un \rangle$ where $\langle un \rangle = \frac{2n-7}{3n+2}$. **8**

b) State and prove comparison test of 5th form of series of numbers. **7**

UNIT-IV

Q.8 a) Show that $\frac{x}{x+1} < \log(1+x) < x : x > 0$. **8**

b) Expand a^x and e^x in power of x by Maclaurin's theorem. **7**

Q.9 a) Evaluate $\lim_{x \rightarrow 0} \frac{1 + \sin x - \cos x + \log(1-x)}{x \tan^2 x}$. **7**

b) Evaluate $\lim_{x \rightarrow a^+} \frac{\log(x-a)}{\log(e^x - e^a)}$ by L' Hospital rule. **8**

End Semester Examination, May 2015

BCA -Third Semester

MATHEMATICS-II (BCA-301)

Time: 3 hrs

Max Marks: **75**

No. of pages: 2

Note: Attempt **FIVE** questions in all; **taking at least ONE question** from each Unit. **Q.1 is compulsory**. All questions carry equal marks.

- Q.1
- Construct a 3×3 matrix whose elements are $a_{ij} = i + j$
 - Define upper triangular matrix with an example.
 - Expand $(x + y)^2$ by binomial expansion.
 - Define Lagrange's mean value theorem.
 - What are countable set? Explain with the help of an example.
 - Define set bounded above.
 - Find $x + 1_{P_3}$
 - What is neighborhood of a point?

State whether TRUE or FALSE:

- A set of all positive real numbers is not bounded above.
- A finite set has no limit point.

1½x10

UNIT-I

- Q.2
- Define the following terms with an example:
 - Transpose of matrix
 - Symmetric matrix
 - Skew symmetric matrix
 - For the 2 matrices A and B verify that $(AB)^T = B^T \cdot A^T$ where

$$A = \begin{bmatrix} 0 & -1 & 2 \\ 3 & 0 & -1 \end{bmatrix} \quad \text{and} \quad B = \begin{bmatrix} 1 & -1 \\ 0 & 2 \\ 5 & 0 \end{bmatrix} \quad \mathbf{6}$$

- Q.3
- How many different words can be formed with the letters of the word BHARAT?
 - In how many of these B and H are never together.
 - How many of these begin with B and end with T.
 - For the matrix $A = \begin{bmatrix} 3 & 1 \\ 7 & 5 \end{bmatrix}$, find x and y so that $A^2 + xI = yA$. Hence find A^{-1} .

UNIT-II

- Q.4
- Show that union of two countable sets is countable. **10**
 - Show that union of an arbitrary family of open sets is an open set. **5**
- Q.5
- Show that union of a denumerable collection of denumerable sets is denumerable. **7**
 - Find the supremum and infimum, if exist of the following:
 - $\{x: -5 < x < 3\}$
 - $\{x: x = 4^n, n \in -N\}$
 - $\left\{1, \frac{1}{2}, \frac{1}{3}, \frac{1}{4}, \dots\right\}$
 - Open interval $(0, 1)$

8

UNIT-III

Q.6 a) Show that a sequence converges if and only if it is a Cauchy's sequences **10**

b) Show that the series $\frac{1}{3} + \frac{1}{3^2} + \frac{1}{3^3} + \dots$ converges. **5**

Q.7 State and prove Cauchy's Root Test. **15**

UNIT-IV

Q.8 a) Evaluate $\lim_{x \rightarrow \infty} x \tan \frac{1}{x}$ **7**

b) Show that $\frac{x}{x+1} < \log(1+x) < x$; $x > 0$ **8**

Q.9 a) Expand e^{2x} by Maclaurin's theorem. **8**

b) Evaluate $\lim_{x \rightarrow a} \frac{\log(x-a)}{\log(e^x - e^a)}$ by L'Hospital's Rule. **7**

End Semester Examination, May 2015
 BCA - Third Semester
OBJECT ORIENTED DESIGN AND PROGRAMMING (BCA-302)

Time: 3 hrs

Max Marks: **75**

No. of pages: 2

Note: Attempt **FIVE** questions in all; **taking at least ONE question** from each Unit. **Q.1 is compulsory**. All questions carry equal marks.

- Q.1
- a) The major goal of inheritance in C++ is:
 - i) To facilitate the conversion of data types.
 - ii) To help modular programming.
 - iii) To facilitate the reusability of a code.
 - iv) To extend the capabilities of a class.
 - b) Which of the following is not an ODP feature in C++?
 - i) Inheritance
 - ii) Polymorphism
 - iii) Objects
 - iv) Exceptions
 - c) A class can have many methods with the same name, as long as the number of parameters are different. This is known as:
 - i) Method overloading
 - ii) Method invoking
 - iii) Method overriding
 - iv) Method labeling
 - d) When a function is defined inside a class, this function is called:
 - i) Inside function
 - ii) Class function
 - iii) Inline function
 - iv) Interior function
 - e) The do while loop is ideal for loop structures that:
 - i) Repeat some process a fixed number of times.
 - ii) Must execute some process atleast one time.
 - iii) Must check the loop condition before the loop body is executed.
 - iv) Do all of the above.
 - f) What will happen when defining the enumerated type?
 - i) It will not allocate memory.
 - ii) It will allocate memory.
 - iii) It will not allocate memory to its variables.
 - iv) None of the above.
 - g) The friend function are used in situations where:
 - i) We want to exchange data between classes.
 - ii) We want to have access to unrelated classes
 - iii) Dynamic binding is required.
 - iv) We want to create versatile overloaded operators.
 - h) Which of the following operations could not be overloaded?
 - i) Size of
 - ii) +
 - iii) +=
 - iv) ::
 - i) Which is used to create a pure virtual function?
 - i) \$
 - ii) =0
 - iii) &
 - iv) !
 - j) Which keyword is used to handle an exception?
 - i) Try
 - ii) Throw
 - iii) Catch
 - iv) None of the above

1½x10

UNIT-I

Q.2 Explain the basic concepts of object oriented programming.

15

Q.3 Describe how data is shared by function in a procedure oriented programs. **15**

UNIT-II

Q.4 Describe data types in C++ with details. **15**

Q.5 Explain the function classification with the passing of arguments. **15**

UNIT-III

Q.6 What is a constructor? Explain types of constructor with examples. **15**

Q.7 Give a programming example that overloads == operator with its use. **15**

UNIT-IV

Q.8 What is a virtual function? Write rules for a virtual function. Explain with an example. **15**

Q.9 Explain in detail about exception handling in C++. **15**

- Q.6 Define normalization? Explain and define 1NF, 2NF, 3NF by giving suitable examples for each. **15**
- Q.7 Explain: a) Functional dependency
b) BCNF
c) 4 NF **5x3**

UNIT-IV

- Q.8 What do you mean by security of database? Explain various ways of database security and recovery procedures in brief. **15**
- Q.9 What is meant by query processing? Discuss various general strategies for query processing? Also, discuss query optimization through a suitable example. **15**

End Semester Examination, May 2015

BCA - Third Semester

BUSINESS ORGANIZATION AND PRINCIPLES OF MANAGEMENT (BCA-304)

Time: 3 hrs

Max Marks: **75**

No. of pages: 2

Note: Attempt **FIVE** questions in all; **taking at least ONE question** from each Unit. **Q.1 is compulsory**. All questions carry equal marks.

Q.1 Fill in the blanks:

- a) One of the external environment factor that influence management is _____.
- b) There are _____ types of degree of delegations.
- c) LPG stands for liberalization, _____ and globalization.
- d) All levels of management between the supervisory level and the top level of the organization are termed _____.
- e) _____ is the ability to translate knowledge into action that results in desired performance.

Choose the correct option:

- f) Management is the combination of:
 - i) Art
 - ii) Science
 - iii) Profession
 - iv) Above three
- g) Which of the following is false about the characteristic of modern organizations?
 - i) Have little global focus.
 - ii) Face simultaneous pressure for stability and change.
 - iii) Some employees will find such organizations stressful.
 - iv) Use the internal to manage external interactions.
- h) Decision making is a primary part of the managerial process (**True/False**)
- i) Define an informal organization.
- j) Name the physical aspect of an enterprise. **1½x10**

UNIT-I

Q.2 What do you mean by a business? How is it different from a profession? Explain with an example. **15**

Q.3 What factors affect the business system? Explain their role in context of the objectives and social responsibilities of a business. **15**

UNIT-II

Q.4 Write short notes on the following (**any three**):

- a) Organization as a system.
- b) Stress as a motivator.
- c) Decentralization.
- d) Objectives of organizational behavior. **15**

Q.5 Explain the behavioural models of decision making in an organization. **15**

UNIT-III

- Q.6 What is the concept of universality of a management? Give arguments for and against this concept. **15**
- Q.7 "Management process is considered to consist of certain functions". Explain various functions in a logical order. **15**

UNIT-IV

- Q.8 Why human resource management is essential for an organization? How is it different from human resource development? **15**
- Q.9 What are the sources available to a business firm for recruiting its employees? Describe the merits and demerits of various sources. **15**

End Semester Examination, May 2015

BCA - Fourth Semester E-COMMERCE (BCA-401)

Time: 3 hrs

Max Marks: **75**

No. of pages: 1

Note: Attempt **FIVE** questions in all; **taking at least ONE question** from each Unit. **Q.1 is compulsory**. All questions carry equal marks.

Q.1 **Answer the following questions:**

- What does B2C stands for?
- Give atleast three examples of websites which provide facility for cyber cash.
- Name two groups in which products of e-money can be categorized.
- What does EFT stands for?
- What is the stored value of a smart card?
- Name three categories of the intellectual property over the internet.
- What is an ISP?

Fill in the blanks:

- 'e-business' is any business that is empowered by an _____.
- The e-check system is an _____ of the paper-check system.
- _____ is the number that identifies a machine on the internet. **1½x10**

UNIT-I

Q.2 What is an 'e-Commerce'? What are the advantages and disadvantages of engaging in e-Commerce activity to identify new applications in business? **15**

Q.3 Write short notes on the following:

- Implications of IT on e-business strategy. **8**
- Porter's value chain model. **7**

UNIT-II

Q.4 What is business-to-business e-commerce? Also discuss three models of B2B e-commerce. **15**

Q.5 Explain the following:

- EDI. **8**
- Just-in-time delivery. **7**

UNIT-III

Q.6 What are the main differences between a credit card and a debit card? Why is one type of card favored over the other? **15**

Q.7 Explain the following:

- e-money **7**
- Legal, ethical and other public policy issues. **8**

UNIT-IV

Q.8 Identify the key steps to setup an infrastructure for the e-commerce. Which step is most critical and Why? **15**

- Q.9 Explain the following:
- a) Virtual communities.
 - b) The future of e-commerce.

7
8

End Semester Examination, May 2015
 BCA - Fourth Semester
OPERATING SYSTEM (BCA-402)

Time: 3 hrs

Max Marks: **75**

No. of pages: 1

Note: Attempt **FIVE** questions in all; **taking at least ONE question** from each Unit. **Q.1 is compulsory**. All questions carry equal marks.

Q.1 **Fill in the blank with appropriate word:**

- a) An operating system is a _____ software.
- b) System calls are _____ instructions.
- c) Long term scheduler is also called as _____.
- d) The measure used to control thrashing is _____.
- e) A _____ is a collection of related information that is stored on secondary storage.

State whether True or False:

- f) A file has a certain defined structure according to its type.
- g) External fragmentation is the cause of allocating more space than required by the process.
- h) The running processes in execution state may be suspended because of I/O or because of preemption.
- i) Banker's algorithm is used to detect deadlock.
- j) MS-DOS supports multiprogramming.

1½x10

UNIT-I

- Q.2
- a) Discuss advantages of multiprogramming systems.
 - b) List the differences between timesharing and multiprogramming systems.
 - c) What is spooling?

5x3

- Q.3
- a) What is a Kernal? Explain its main functions. **7**
 - b) What is the purpose of command interpreter? Why is it usually separated from the Kernal? **8**

UNIT-II

- Q.4 Compare and contrast FCFS and SJF scheduling algorithms with the help of suitable examples. **15**

- Q.5
- a) Define a process with examples. **5**
 - b) Differentiate between long term, short term and medium schedulers with their appropriate examples. **10**

UNIT-III

- Q.6 Discuss the technique of paging in detail. **15**

- Q.7 Discuss:
- a) Swapping
 - b) Virtual memory. **15**

UNIT-IV

- Q.8 a) Explain different types of file formats. Also give examples. **7**

b) Explain various methods for free space management. Illustrate it with an example.

8

Q.9 Discuss FCFS, SCAN and CSCAN disk scheduling algorithm by taking a suitable example.

End Semester Examination, May 2015
 BCA -Fourth Semester
WEB DESIGNING AND INTERNET APPLICATIONS (BCA-403)

Time: 3 hrs

Max Marks: **75**

No. of pages: 2

Note: Attempt **FIVE** questions in all; **taking at least ONE question** from each Unit.
Q.1 is compulsory. All questions carry equal marks.

- Q.1
- a) IP addresses are converted into:
 - i) Binary string
 - ii) Alphanumeric string
 - iii) Hierarchy of domain
 - iv) Hexadecimal string
 - b) The tag used in HTML to link other URL is:
 - i) <A>
 - ii) <H>
 - iii) <U>
 - iv) <L>
 - c) A web page is located using:
 - i) Universal record linking.
 - ii) Universal resource locator.
 - iii) Universal record locator.
 - d) Which tag is used to arrange tags in paragraphs?
 - i) <par>
 - ii) <paragraph>
 - iii) <P>
 - iv) <a>
 - e) HTML stands for:
 - i) Hypertext making links
 - ii) Hypertext markup language
 - iii) Higher textual making of links
 - iv) Hyper text mixer of links
 - f) CSS stands for:
 - i) Control stylesheets
 - ii) Creative stylesheets
 - iii) Cascading stylesheets
 - iv) None of above
 - g) Which of following is not scripting language?
 - i) HTML
 - ii) XML
 - iii) Postscript
 - iv) Javascript
 - h) We use tag within:
 - i) <head> only
 - ii) <title>
 - iii) <head> and <1 body>
 - iv) <javascript>
 - i) Javascript is _____ side scripting language.
 - i) Server
 - ii) Browser
 - iii) ISP
 - iv) None of the above
 - j) Which of the following HTML code is valid?
 - i)
 - ii)
 - iii) <red>
 - iv) All of the above

1½x10

UNIT-I

- Q.2 Write short notes on:
- | | | | |
|---------|-----------|--------|-----------|
| a) SMTP | b) Usenet | c) URL | 15 |
|---------|-----------|--------|-----------|
- Q.3 Write short notes on:
- | | |
|--|-----------|
| a) What is internet? What are its application areas? | 10 |
| b) Write a short note on internet security. | 5 |

UNIT-II

- Q.4 a) Explain the structure of HTML.
b) Differentiate external and internal linking.
c) Explain image tag and its attributes. **5x3**
- Q.5 Create an admission form in HTML using buttons, textbox, radio button, checkbox and listbox with all attributes. **15**

UNIT-III

- Q.6 a) What are frames? Insert the four web pages in the frames using appropriate examples. **10**
b) Differentiate between <Address> and <Blockquote> tags. **5**
- Q.7 a) Explain various character formatting tags in HTML. **10**
b) Differentiate between colspan, rowspan, cellpadding and cellspacing in table. **5**

UNIT-IV

- Q.8 What are cascading stylesheets? Explain the types of stylesheets in detail. **15**
- Q.9 a) Write a program in javascript for swapping of two images. **5**
b) Differentiate between prompt(), alert() and confirm() boxes. **10**

End Semester Examination, May 2015
 BCA -Fourth Semester
BUSINESS COMMUNICATION-II (BCA-404)

Time: 3 hrs

Max Marks: **75**

No. of pages: 2

Note: Attempt **FIVE** questions in all; **taking at least ONE question** from each Unit.
Q.1 is compulsory. All questions carry equal marks.

Q.1 Choose the correct option:

- a) Generally speaking in business we communicate:
 - i) Only to inform
 - ii) To both persuade and inform
 - iii) Only to persuade
 - iv) Only to entertain
- b) Effective communication is essentially a:
 - i) Two-way process
 - ii) Three-way process
 - iii) Both a one-way and a two-way process
 - iv) One way process.
- c) Speakers usually experience difficulty in ensuring that the message is:
 - i) Conveyed precisely, understood correctly, and acted upon promptly and as desired.
 - ii) Conveyed precisely.
 - iii) Understood correctly.
 - iv) Acted upon promptly and as desired.
- d) The purpose of public relations is:
 - i) To sell the company's products.
 - ii) To communicate with shareholders.
 - iii) To project a favorable image of the company among various publics.
 - iv) To communicate during a crisis.
- e) Which of the following is not an indication of active listening?
 - i) Egocentrism.
 - ii) Engaging in conversation with the speaker.
 - iii) Taking notes.
 - iv) Reconstructing the information.
- f) An impromptu speech means:
 - i) A prepared speech delivered without any supporting aids.
 - ii) A speech delivered without any preparation.
 - iii) A speech delivered while referring to notes.
 - iv) A speech delivered by reading from notes.
- g) "A meeting without an agenda is like a ship without a destination". This means that the meeting:
 - i) Has no goal
 - ii) Lacks leadership
 - iii) Is inconclusive
 - iv) Is disorganized
- h) A common method of measuring attitudes is by using:
 - i) In-depth interviews.
 - ii) Observing people's behavior.
 - iii) Semantic differential scales.
 - iv) A lie detector.
- i) The centrality of an attitude reflects:
 - i) A person's degree of negative or positive feelings about an object.
 - ii) The extent to which an attitude is related to a person's other attitudes.

End Semester Examination, May 2015
 BCA -Fifth Semester
INFORMATION AND COMMUNICAION TECHNOLOGY (BCA-501)

Time: 3 hrs

Max Marks: **75**

No. of pages: 1

Note: *Attempt **FIVE** questions in all; **taking at least ONE question** from each Unit. **Q.1 is compulsory**. All questions carry equal marks.*

- Q.1 a) Fill in the blanks:
- i) Tele-working mean _____.
 - ii) The digital divide is a _____.
 - iii) EFTPOS is _____.
 - iv) A cyber crime is _____.
 - v) Full form of EDI is _____.
- b) State four methods of protecting the security of a computer network. **1½x5**
- c) Name three categories of cyber criminals. **2**
- d) What is the network service which may be improved through the use of network audit software? **1½**
- e) Define digital signature. **2**

UNIT-I

- Q.2 Explain Bluetooth technology. Compare Bluetooth with Wi-Fi. Are the two terms similar to each other? If they are different then list the points of difference. **15**
- Q.3 How can we maintain address book on the internet? List the various advantages of maintaining address book in a correct order. **15**

UNIT-II

- Q.4 Is there any difference between Wiki and Wikipedia? Write down the steps to upload an article in Wikipedia. Who maintain Wikipedia? **15**
- Q.5 Explain the concept of E-mail. State the requirement of having an email. State the advantages and disadvantages of email. List some email supporting websites and softwares. **15**

UNIT-III

- Q.6 Discuss the followings:
- a) Phishing
 - b) Software privacy
 - c) Copywriting
- 5x3**
- Q.7 "A network service may be improved through the use of network audit software".
- a) Explain why network audit software is used? **8**
 - b) Give four items of data that may be recorded by the network audit software. **7**

UNIT-IV

- Q.8 Give a detailed note on control applications like turtle graphics, control of flights, buzzers, motors, burglar alarms, automatic washing machines and microwaves. **15**

Q.9 Discuss the ICT application in booking system and manufacturing industry. **15**

End Semester Examination, May 2015
 BCA – Fifth Semester
SOFTWARE ENGINEERING (BCA-502)

Time: 3 hrs

Max Marks: **75**

No. of pages: 2

Note: Attempt **FIVE** questions in all; **taking at least ONE question** from each Unit. **Q.1 is compulsory**. All questions carry equal marks.

Q.1 Multiple choice questions:

- a) Software mistakes during coding are known as:
 - i) Failures.
 - ii) Defects.
 - iii) Bugs.
 - iv) Errors.
- b) Spiral model was developed by:
 - i) Bev Littlewood.
 - ii) Berry Boehm.
 - iii) Roger Pressman.
 - iv) Victor Basili.
- c) If requirements are frequently changing which model is to be selected?
 - i) Waterfall.
 - ii) Prototyping model.
 - iii) Spiral model.
 - iv) Iterative enhancement model.
- d) Software engineering approach is used to achieve:
 - i) Better performance of hardware
 - ii) Error free software.
 - iii) Reusable software.
 - iv) Quality software product.
- e) Cost estimation for a project may include:
 - i) Software cost.
 - ii) Hardware cost.
 - iii) Personnel costs
 - iv) All of the above.
- f) Temporal cohesion means:
 - i) Cohesion between temporary variables.
 - ii) Cohesion between local variables.
 - iii) Cohesion with respect to time.
 - iv) Coincidental cohesion.
- g) The relationship of data elements in a module is called:
 - i) Coupling.
 - ii) Cohesion.
 - iii) Modularity
 - iv) None of the above.
- h) During validation:
 - i) Process is checked
 - ii) Product is checked
 - iii) Developers performance is evaluated
 - iv) The customer checks the product.
- i) Alpha testing is done by:
 - i) Customer.
 - ii) Tester.
 - iii) Developer.
 - iv) All of the above.
- j) Cyclomatic complexity is denoted by:
 - i) $V(G)=e-n+2P$.
 - ii) $V(G)=\pi +1$.
 - iii) $V(G)=$ number of regions of the graph
 - iv) All of the above.

1½x10

UNIT-I

- Q.2 Discuss prototype model. What is the effect of designing a prototype on the overall cost of a software project? What are the advantages of developing prototype of a system? **15**
- Q.3 a) Define the term software engineering. Discuss the techniques of software engineering. **8**
 b) What is more important: Product or process? Justify the answer. **7**

UNIT-II

- Q.4 a) Consider a project with the following functional units:
 No. of user inputs: 50
 No. of user outputs: 40
 No. of user enquiries: 35
 No. of user files: 06
 No. of external interfaces: 04
 Assume all complexity adjustment factors and weighting factors are average.
 Compute function points for the project. **8**
 b) Write a short note on PERT. **7**
- Q.5 Write short notes on the following:
 a) LOC.
 b) Token count.
 c) SRS. **5x3**

UNIT-III

- Q.6 Discuss COCOMO model with their types in detail. **15**
- Q.7 a) Differentiate between coupling and cohesion. **8**
 b) How many types of coupling are available? What is the effect of coupling on effective modular design? **7**

UNIT-IV

- Q.8 a) Define error, bug, fault, defect and failure. **8**
 b) What is importance of testing? **7**
- Q.9 a) Describe equivalence class partitioning method. Compare this with boundary value analysis technique. **8**
 b) Why does software testing need extensive planning? **7**

- Q.5 What do you mean by transformation? Explain different types of transformation with examples. **15**

UNIT-III

- Q.6 Derive the transformation matrix to scale a unit cube twice uniformly w.r.t. origin. Find the coordinate of transformed cube. **15**
- Q.7 a) Differentiate between cavalier and cabinet projection. Why cabinet projection is more realistic than cavalier projection? **10**
b) What do you mean by 3D? How is it different from 2D? Explain through an example. **5**

UNIT-IV

- Q.8 Explain the use of the following graphic functions with their syntax and examples:
- | | |
|-------------------|------------------|
| a) arc() | b) getbkcolor() |
| c) initgraph() | d) detectgraph() |
| e) cleardevice() | f) closegraph() |
| g) setfillstyle() | h) outtext() |
| i) rectangle() | j) Fillpoly() |
- 15**
- Q.9 Write a program to generate /design a solar system. **15**

End Semester Examination, May 2015
 BCA -Fifth Semester
NUMERICAL ANALYSIS AND STATISTICS (BCA-504)

Time: 3 hrs

Max Marks: **75**

No. of pages: 2

Note: Attempt **FIVE** questions in all; **taking at least ONE question** from each Unit.
Q.1 is compulsory. All questions carry equal marks.

- Q.1 a) Write down formula of Regula-Falsi method for solving non-linear equations.
 b) Using Newton Raphson method construct a formula to find square root of a number N.
 c) What do you mean by initial value problem?
 d) Write down the relation between the operators E and ∇ .
 e) Write down Bessel's interpolation formula.
 f) Define divided differences.
 g) State centered formula of order $O(h^2)$ for numerical differentiation.
 h) Write down expression for Simpsons three-eighth rule for numerical integration.
 i) What is binomial distribution for a variate X?
 j) Calculate $P(-1 \leq z \leq 1)$ for standard normal variate z. **1½x10**

UNIT-I

- Q.2 a) Derive an iteration formula to solve $x^3 + x^2 - 1 = 0$ and hence solve the equation. **8**
 b) Derive Newton-Raphson Formula to solve non-linear equations. **7**
- Q.3 a) Solve the initial value problem:
 $\frac{dy}{dx} = \frac{y-x}{y+x}, y(0) = 1$
 For $x = 0.1$ by Euler's method. **7**
- b) Apply Runge-Kutta method to solve $\frac{dy}{dx} = x^2 + y^2, y(0) = 1$.
 For $x = 0.1$. **8**

UNIT-II

- Q.4 a) The area A of a circle of radius d is given for the following values:

d	80	85	90	95	100
A	5026	5674	6362	7088	7854

Calculate the area of a circle of radius 105. **7**

- b) Using the table given below and Newton's Divided difference formula, find $f(x)$ as a polynomial in x :

x	-1	0	3	6	7
$f(x)$	3	-6	39	822	1611

8

- Q.5 a) Using Lagrange's formula, find the interpolating polynomial for $(0,2)$, $(1,3)$, $(2,12)$ and $(5,147)$. **9**

b) Construct Newton's divided difference table for the data:

x	-4	-1	0	2	5
y	1245	33	5	9	1335

6

UNIT-III

Q.6 a) Find the least square fit $y = a + bx + cx^2$ for the data:

x	-3	-1	1	3
y	15	5	1	5

9

b) Using centered formula of order (h^4), Find $f'(1.4)$ from the following table:

x	1.2	1.3	1.4	1.5	1.6
$f(x)$	1.5095	1.6984	1.9043	2.1293	2.3756

6

Q.7 a) Using Simpson's one-third rule, Compute $\int_0^1 \frac{1}{1+x} dx$.

taking $h = 0.125$.

7½

b) A river is 80 feet wide. The depth y in feet of the river at a distance x from one bank is given by the following table:

x	0	10	20	30	40	50	60	70	80
y	0	4	7	9	12	15	14	8	3

Find approximately the area $A = \int y dx$ of the cross section of the river.

7½

UNIT-IV

Q.8 a) A coin is tossed five times. What is the probability of getting at least three heads?

7

b) Fit a Poisson distribution to the following data:

x	0	1	2	3	4
f	122	60	15	2	1

8

Q.9 Fit a normal distribution to the following data and test the goodness of fit:

x	4	6	8	10	12	14	16	18	20	22	24
y	1	7	15	22	35	43	38	20	13	5	1

BCA – Sixth Semester

JAVA PROGRAMMING (BCA-601A)

Time: 3 hrs

Max Marks: **75**

No. of pages: 2

Note: Attempt **FIVE** questions in all; **taking at least ONE question** from each Unit. **Q.1 is compulsory**. All questions carry equal marks.

Q.1 Multiple choice questions:

- a) The overloaded constructors in a class will have:
 - i) different names
 - ii) different parameter lists
 - iii) different return types
 - iv) None of the above
- b) To create our own exception class, we have to:
 - i) create an own try and catch block
 - ii) extend exception class
 - iii) use throws keyword
 - iv) use finally keyword
- c) Which keyword is used to monitor statement for execution?
 - i) try
 - ii) catch
 - iii) throw
 - iv) throws
- d) Which method is called first by an applet?
 - i) start
 - ii) run()
 - iii) init()
 - iv) paint()
- e) To display text on applet, _____ method is used.
- f) Java always provides a default constructor to a _____.
- g) What is Garbage collection in Java?
- h) Why do we use array as a parameter in main method?
- i) What is package?
- j) What is method overriding?

1½x10

UNIT-I

- Q.2 a) What is the difference between Java, C and C++?
- b) Explain the importance of JVM in Java programming.
- c) What is stand alone application?

5x3

- Q.3 a) Discuss the structure of Java program. **7**
- b) Discuss the various tools available in JDK? How do they help in application development? **8**

UNIT-II

- Q.4 a) Write a program in Java to find the addition and subtraction of two matrices. **9**

- b) Compare:
 - a) break and continue
 - b) while and do-while.**6**

- Q.5 a) What is an array? Give the format and purpose of arrays in Java. **10**
- b) Write a program in Java to find sum and reverse of n digit numbers. **5**

UNIT-III

- Q.6 a) What are constructors used for? Can constructors be overloaded? Write a program in support of your answer. **9**

b) What are classes and objects? How does classes accomplish data hiding? Explain

6

Q.7 a) What is the difference between final, finalize and finally() in Java? **6**

b) Discuss Java error handling mechanism with an example. What is the difference between checked and unchecked exception handling in Java. **9**

UNIT-IV

Q.8 a) What is an interface? How is it different from an abstract class? Can an abstract class have constructors? Explain. **9**

b) Define the following for packages:

- i) -Public - private - protected
- import

6

Q.9 a) What is the difference between shadowing and overriding in C#.net?

b) Write a short note on Delegation Event Model.

c) What are applets? Differentiate them from application.

5x3

End Semester Examination, May 2015
 BCA – Sixth Semester
DATA COMMUNICATION AND NETWORKING (BCA-602)

Time: 3 hrs

Max Marks: **75**

No. of pages: 2

Note: Attempt **FIVE** questions in all; **taking at least ONE question** from each Unit. **Q.1 is compulsory**. All questions carry equal marks.

- Q.1
- a) A tree topology is a variation of a _____ topology.
 - i) Mesh
 - ii) Star
 - iii) Bus
 - iv) Ring
 - b) A television broadcast is as example of _____ transmission.
 - i) Simplex
 - ii) Half duplex
 - iii) Full duplex
 - iv) Automatic
 - c) ARQ stands for _____.
 - i) Automatic repeat quantization
 - ii) Automatic repeat request
 - iii) Automatic retransmission request
 - iv) Acknowledge repeat request
 - d) DNS is the abbreviation of:
 - i) Dynamic name system
 - ii) Domain name system
 - iii) Dynamic network system
 - iv) Domain network service
 - e) _____ control refers to methods of error detection and correction.
 - i) Flow
 - ii) Error
 - iii) Transmission
 - iv) None of the above
 - f) Frame relay provides _____ connections.
 - i) PVC
 - ii) SVC
 - iii) DLCI
 - iv) Both i) and ii)
 - g) Routers functions is the _____ layer.
 - i) Physical
 - ii) Data link
 - iii) Network
 - iv) Transport
 - h) In FTP, when we _____, it is copied from the client to the server.
 - i) Retrieve a file
 - ii) Store a file
 - iii) Retrieve a list
 - iv) None of the above
 - i) _____ is the protocol suite for the current internet.
 - i) TCP/IP
 - ii) NCP
 - iii) UNIX
 - ii) ACM
 - j) Which of the following is not in OSI model?
 - i) Physical layer
 - ii) Internet layer
 - iii) Network layer
 - iv) Transport layer

1½x10

UNIT-I

- Q.2 What do you mean by sampling? Explain PAM and PCM in sampling with a proper diagram. **15**

- Q.3 Differentiate the following:
- a) Analog and digital signal.
 - b) Bus and ring topology.
 - c) Bitrate and band rate.

5x3

UNIT-II

- Q.4 Differentiate between OSI model and TCP/IP model. Explain network layer and presentation layer of OSI model. **15**
- Q.5 Write short notes on:
a) UDP
b) SMTP
c) FTP **5x3**

UNIT-III

- Q.6 What do you mean by routing? How is distance vector routing different from link state routing? **15**
- Q.7 What are virtual LANs? How are they different from LANs? State advantages and disadvantages of virtual LANs. **15**

UNIT-IV

- Q.8 Explain token ring concept in relation to priority, reservations, monitor stations and backup stations etc. **15**
- Q.9 What is packet switching? How a datagram approach is different from a virtual circuit approach? Justify your answer. **15**

UNIT-II

- Q.4 a) List out the differences between a plain text and a formatted text. **5**
 b) What is OLE? Explain in detail. **10**
- Q.5 a) Write a short note on conversion in various text formats.
 b) Explain RTE syntax in detail.
 c) List all the tools used in HTML. **5x3**

UNIT-III

- Q.6 a) Differentiate between Lossless and Lossy compression techniques.
 b) How data compression is possible?
 c) Write a short note on bitmap image. **5x3**
- Q.7 a) Explain one of entropy encoding technique with an example. **10**
 b) List some file formats used in multimedia. **5**

UNIT-IV

- Q.8 a) Discuss the principle of animation. **10**
 b) List some 2D and 3D software. Also explain the 2D and 3D animation techniques. **5**
- Q.9 Write short notes on:
 a) Morphing.
 b) Use of animation in multimedia.
 c) Image size on quality and storage. **5x3**

End Semester Examination, May 2015
 BCA -First Semester
**FUNDAMENTALS OF INFORMATION TECHNOLOGY AND
 PROGRAMMING TECHNIQUES (BCA-1001)**

Time: 3 hrs

Max Marks: **75**

No. of pages: 2

Note: *Attempt **FIVE** questions in all; taking at least **ONE** question from each Unit. **Q.1** is compulsory. All questions carry equal marks.*

Q.1 Multiple choice questions:

- a) A computer program that converts assembly language to machine language is:
 i) Compiler ii) Interpreter
 iii) Assembler iv) Comparator
- b) ALU is:
 i) Arithmetic logic unit ii) Array logic unit
 iii) Application logic unit iv) None of the above
- c) The term gigabytes refers to:
 i) 1024 mega bytes ii) 1024 kilobytes
 iii) Application logic unit iv) None of the above
- d) The secondary storage devices can only store data but they cannot perform:
 i) Arithmetic operation ii) Logic operation
 iii) Fetch operation iv) Either of the above

State whether the following statements are True or False:

- e) Debugging means detecting, locating and removing all errors in a computer program.
- f) Structured programming do not follow modular approach.
- g) WORM stands for write once read many.
- h) ROM and RAM are secondary storage units.
- i) VOICE system are output devices.
- j) Condition stub and action stub form a decision table. **1½x10**

UNIT-I

- Q.2** Draw the block diagram of computer. Which component of a computer is generally called brain of a computer and why? Describe the functions of the distinct part of this component. **15**

- Q.3** Write down the applications of computers in the following fields:
 a) Banking b) Medicine c) Sports d) Airline e) Weather **3x5**

UNIT-II

- Q.4** What do you understand by semi-conductor memory and magnetic memory? What are the similarities between the two? Also specify the major differences between the two. **15**

- Q.5** Perform the following conversions:

- a) $(172)_{10} = (?)_2$
 b) $(10110110101)_2 = (?)_{10}$
 c) $(FCA2)_{16} = (?)_2$

d) $(7952)_8 = (?)_{10}$

e) $(4459)_{10} = (?)_8$

5x3**UNIT-III**

Q.6 What do you understand by an algorithm? What are the various measures that needs to be taken care when designing an algorithm? Illustrate with the help of an example.

15

Q.7 Write down the algorithm and also draw the flowchart for printing a Fibonacci series.

15**UNIT-IV**

Q.8 Explain the approach which uses reverse engineering technique to solve the problem. Mention its relative advantages and disadvantages. Compare it with black box technique.

15

Q.9 Which technique is popularly known as modular approach of programming? Explain its concept with a suitable example. Also mention its advantages and disadvantages.

15

End Semester Examination, May 2015
 BCA -First Semester
PROGRAMMING IN 'C' (BCA-1002)

Time: 3 hrs

Max Marks: **75**

No. of pages: 2

Note: Attempt **FIVE** questions in all; **taking at least ONE question** from each Unit. **Q.1 is compulsory**. All questions carry equal marks.

- Q.1
- a) C language was developed by:
 - i) Ken Thompson
 - ii) Dennis Ritchie
 - iii) Peter Nortron
 - iv) None of the above
 - b) The two operators && and || are:
 - i) Arithmetic
 - ii) Logical
 - iii) Relational
 - c) When we use the case control structure?
 - i) To choose one from multiple alternatives.
 - ii) To switch from one instruction to another.
 - iii) To make execution fast.
 - iv) None of the above.
 - d) The expression $X = 4 + 2\%8$ evaluates:
 - i) -6
 - ii) 6
 - iii) 4
 - iv) None of the above
 - e) The single character input/output functions are:
 - i) scanf and printf
 - ii) getchar and putchar
 - iii) None of the above
 - f) #define should not end with a semicolon. (**True / False**)
 - g) A variable which is visible only in the function, in which it is defined is called local variable. (**True / False**)
 - h) A C variable cannot start with a number. (**True / False**)
 - i) Which escape character can be used to begin a new line in C?
 - j) Which of the language is predecessor to C programming language? **1½x10**

UNIT-I

- Q.2
- a) Write a program in C language to find area of a triangle. **5**
 - b) What are the reasons of popularity of C over other programming languages? **5**
 - c) Write short note on constant. **5**
- Q.3 What is operator? Discuss various types of operators available in C language. Give an example of each. **15**

UNIT-II

- Q.4 Write the format, purpose and example of following: **15**
- a) for loop
 - b) while loop
 - c) else-if ladder
- Q.5
- a) Give the syntax of declaring Arrays in C language with examples. **8**
 - b) Write a program in C to generate the Fibonacci series upto n terms. **7**

UNIT-III

- Q.6
- a) Highlight the differences between Structure and Union. **5**
 - b) Explain with the help of an example how a structure is declared and initialized? **5**

- c) Distinguish between formal and actual parameters with examples. **5**
- Q.7 a) Explain general syntax of C function with an example. **9**
b) What is recursion? While writing any recursive function what things must be taken care of? **6**

UNIT-IV

- Q.8 a) Distinguish between:
i) Printf() and fprintf() ii) scanf() and fscanf() **5**
b) Discuss: fopen() and fclose() functions. **5**
c) What is the purpose of rewind()? **5**
- Q.9 a) Discuss the various modes of opening a data file in C. **8**
b) Write a note on storage classes. **7**

End Semester Examination, May 2015
BCA -First Semester
BASIC MATHEMATICAL SKILLS (BCA-1004)

Time: 3 hrs

Max Marks: **75**

No. of pages: 2

Note: Attempt **FIVE** questions in all; **taking at least ONE question** from each Unit.
Q.1 is compulsory. All questions carry equal marks.

- Q.1 a) Define Rank of matrix.
 b) If $k+1, 3k, 4k+2$ be any 3 consecutive terms of an A.P., then value of k is _____.
 c) Solve $\log \sqrt{8}/\log 8$.
 d) Find $\frac{dy}{dt}$ for $y = x^9$
 e) The 9th term of AP sequence 9, 12, 15, 18..... is _____.
 f) If $\left(\frac{a}{b}\right)^{x-1} = \left(\frac{b}{a}\right)^{x-3}$, then the value of x is _____.
 g) If $A = \begin{bmatrix} 3 & 2 \\ 1 & 1 \end{bmatrix}$ and $AB = \begin{bmatrix} 1 & 3 & 2 \\ 1 & 1 & 1 \end{bmatrix}$, then:
 i) B is not determined
 ii) $B = \begin{bmatrix} -1 & 1 & 0 \\ 2 & 0 & 1 \end{bmatrix}$
 iii) $B = \begin{bmatrix} -1 & 2 \\ 1 & 0 \\ 0 & 1 \end{bmatrix}$
 iv) $B = \begin{bmatrix} -1 & 1 \\ 2 & 0 \end{bmatrix}$
 h) Find the value of a if the following matrix is singular $\begin{bmatrix} -4 & 2 \\ 6 & a \end{bmatrix}$
 i) Find cofactor of A_{23} of the matrix $A = \begin{bmatrix} 5 & -2 & 7 \\ 6 & 1 & -9 \\ 4 & -3 & 8 \end{bmatrix}$
 j) If $A = \begin{bmatrix} 5 & 3 & 2 \\ 0 & 4 & 1 \\ 0 & 0 & 3 \end{bmatrix}$ the $|A|$ is _____. **1½x10**

UNIT-I

- Q.2 a) If $A = \begin{bmatrix} 0 & 3 \\ -7 & 5 \end{bmatrix}$ and $I = \begin{bmatrix} 1 & 0 \\ 0 & 1 \end{bmatrix}$, then find K so that $KA^2 = 5A - 21I$ **7**
- b) Find the value of x such that $\begin{bmatrix} 1 & 2 & 1 \end{bmatrix} \begin{bmatrix} 1 & 2 & 0 \\ 2 & 0 & 1 \\ 1 & 0 & 2 \end{bmatrix} \begin{bmatrix} 1 \\ 2 \\ x \end{bmatrix} = 0$ **8**

- Q.3 a) Verify Cayley-Hamilton theorem for matrix $A = \begin{bmatrix} 1 & 3 & 3 \\ 1 & 4 & 3 \\ 1 & 3 & 4 \end{bmatrix}$ and hence find A^{-1} . **10**

- b) Find the rank of matrix $A = \begin{bmatrix} 3 & 2 & 7 \\ 4 & -3 & -2 \\ 5 & 9 & 23 \end{bmatrix}$. **5**

UNIT-II

- Q.4 a) The sum of 3 numbers in A.P. is 15. If 1, 4 and 19 are added to the numbers, the resulting numbers are in G.P. Find the numbers. **7**
- b) How many words can be formed from the letters of the word DAUGHTER?
 i) Taking all letters together **8** ii) Beginning with D and ending with R **8**

- Q.5 a) Find the 8th term in $\left[\frac{2x}{3} - y^2\right]^{11}$ **7**
- b) Sum the series $5+55+555+\dots$ to n terms. **8**

UNIT-III

- Q.6 a) Show that $2\log x + 2\log x^2 + 2\log x^3 + \dots + 2\log x^n = n(n+1)\log x$ **8**
- b) Simplify: $\frac{\tan(90+\theta)\sin(180+\theta)\sec(270+\theta)}{\cos(270-\theta)\operatorname{cosec}(180-\theta)\cot(360-\theta)}$ **7**

- Q.7 a) If ABCD is a cyclic quadrilateral, Prove that $\cos A + \cos B + \cos C + \cos D = 0$ **7**
- b) If $\log \frac{x+y}{7} = \frac{1}{2}(\log x + \log y)$; Show that: $\frac{x}{y} + \frac{y}{x} = 47$ **8**

UNIT-IV

- Q.8 a) For value of k is the following function $f(x)$ continuous at $x = 2$

$$f(x) = \begin{cases} \frac{x^2 - 4}{x - 2} & ; x \neq 2 \\ k & ; x = 2 \end{cases} \quad \mathbf{7}$$

- b) If $y = \sqrt{x} - \frac{1}{\sqrt{x}}$, Show that $2x \frac{dy}{dx} + y = 2\sqrt{x}$ **8**

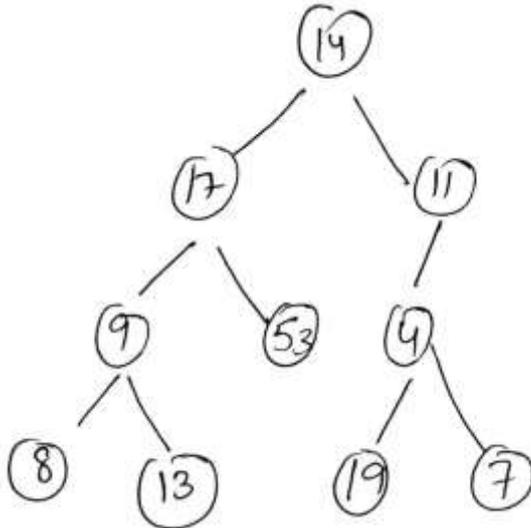

- Q.9 a) If $y = \frac{x}{x+y}$, show that $x \frac{dy}{dx} = y(1-y)$ **7**

- b) If $\lim_{x \rightarrow 1} \frac{x^4 - 1}{x - 1} = \lim_{x \rightarrow k} \frac{x^3 - k^3}{x^2 - k^2}$ find the value of k **8**

- Q.5 a) Mention and explain various types of queue with examples. **7**
 b) What are advantages and disadvantages of linked lists? How linked lists can be used for polynomial manipulation? **8**

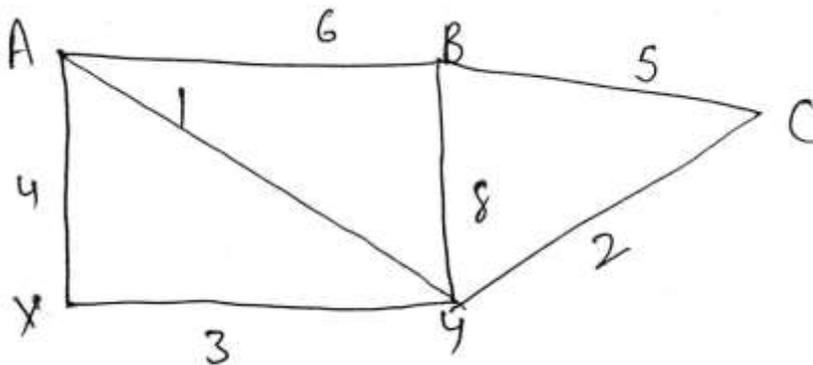

UNIT-III

- Q.6 a) From the given binary tree, answer the followings:

- i) Which is root node?
 ii) Which are leaf nodes?
 iii) What is the result of pre-order traversal?
 iv) What is the result of post-order traversal?
 v) What is the result of in-order traversal? **10**
 b) Write a short note on threaded tree. **5**

- Q.7 What is minimum spanning tree? Write Kruskal algorithm for minimum spanning tree. Also, find the minimum spanning tree for the following:

15

UNIT-IV

- Q.8 a) Sort the following data using quick sort:
 66, 77, 11, 88, 99, 22, 33, 44, 55. **8**
 b) Write an algorithm to search a particular element using binary search method. **7**

- Q.9 What is hashing? Discuss various hashing techniques. Also, discuss the concept of collision resolution technique in detail. **15**

End Semester Examination, May 2015

BCA -Second Semester

DATABASE SYSTEMS (BCA-2002)

Time: 3 hrs

Max Marks: **75**

No. of pages: 2

Note: *Attempt **FIVE** questions in all; **taking at least ONE question** from each Unit. **Q.1 is compulsory**. All questions carry equal marks.*

Q.1 **Answer the following by choosing the correct option:**

- a) A database schema refers to:
 - i) Information at particular level
 - ii) Overall design of database
 - iii) Query language
 - iv) Validation issues
- b) Row is synonymous with the term:
 - i) Record
 - ii) Relation
 - iii) Column
 - iv) Field
- c) Which of the following is a group of one or more attributes that uniquely identifies a row?
 - i) Key
 - ii) Determinants
 - iii) Tuple
 - iv) Relation
- d) Traditional set operators include:
 - i) Union
 - ii) Selection
 - iii) Projection
 - iv) Division
- e) Which structure is network model based on?
 - i) Graph
 - ii) Linked list
 - iii) Domain
 - iv) None of the above
- f) Which of the following is not a type of SQL constraint?
 - i) Primary key
 - ii) Foreign key
 - iii) Alternate key
 - iv) Unique key
- g) A functional dependency is a relationship between or among:
 - i) Tables
 - ii) Rows
 - iii) Relations
 - iv) Attributes
- h) Read only databases are _____ updated.
 - i) Always
 - ii) Commonly
 - iii) Increases
 - iv) None of the above
- i) A transaction completes its execution is said to be:
 - i) Committed
 - ii) aborted
 - iii) Rolled back
 - iv) Failed
- j) In ER diagram, ER stands for:
 - i) Entity-Record
 - ii) Entity-Relationship
 - iii) Entity-Row
 - iv) All of the above.

1½x10

UNIT-I

Q.2 What is file based approach of database? Explain its limitations. How DBMS management system is better solution along with advantages and disadvantages of DBMS? **15**

Q.3 What are the different notations used for designing an ER diagram and explain their usage? **15**

UNIT-II

Q.4 Explain all types of keys used in relational model with a suitable database example. **15**

Q.5 Discuss any 10 Oracle functions with proper syntax and suitable examples. **15**

UNIT-III

- Q.6 What is meant by normalization? Why do we normalize the database? Explain different techniques of normalization. **15**
- Q.7 Explain two-phase locking protocol with a suitable example in concurrency control. **15**

UNIT-IV

- Q.8 What is the importance of recovery procedure? What is meant by log-based recovery technique? Discuss different types of log based recovery techniques. **15**
- Q.9 What is meant by DDBMS? Compare DDBMS with DBMS and discuss advantages and disadvantages of DDBMS. **15**

End Semester Examination, May 2015
 BCA -Second Semester
LOGICAL ORGANISATION OF COMPUTER (BCA-2003)

Time: 3 hrs

Max Marks: **75**

No. of pages: 2

Note: Attempt **FIVE** questions in all; **taking at least ONE question** from each Unit. **Q.1 is compulsory**. All questions carry equal marks.

Q.1 Multiple choice questions:

- a) A flip flop has:
- | | |
|------------------------|-----------------------|
| i) One stable state | ii) No stable state |
| iii) Two stable states | iv) None of the above |
- b) Which is typically the longest: bit, byte, nibble word?
- | | | | |
|--------|----------|-------------|----------|
| i) Bit | ii) Byte | iii) Nibble | iv) word |
|--------|----------|-------------|----------|
- c) A JK flip flop is in a "no change" condition when:
- | | | | |
|------------|--------------|---------------|--------------|
| i) J=1 K=1 | ii) J=1, K=0 | iii) J=0, K=1 | iv) J=0, K=0 |
|------------|--------------|---------------|--------------|
- d) The clock signals are used in sequential logic circuits:
- i) to tell the time of the delay.
 - ii) to tell how much time has elapsed since the system was turned on.
 - iii) to carry serial digital signals.
 - iv) to synchronize events in various parts of a system.
- e) The two parts of a microprocessor instruction are called operation and the:
- | | |
|-----------------|-----------------------|
| i) Operand | ii) Operator |
| iii) Observable | iv) None of the above |
- f) A combinational circuit which is used to change a decimal number into an equivalent BCD number is:
- | | |
|------------------|-------------------|
| i) Decoder | ii) Encoder |
| iii) Multiplexer | iv) Demultiplexer |
- g) A 20-bit address bus allows access to a memory of capacity:
- | | |
|------------|-----------|
| i) 1 MB | ii) 2 MB |
| iii) 32 MB | iv) 64 MB |
- h) When is a cache block written into the main memory?
- i) Valid bit is not set
 - ii) Every cycle
 - iii) Dirty bit is set
 - iv) None of the above
- i) A microprocessor retries instructions from:
- i) Control memory
 - ii) Cache memory
 - iii) Main memory
 - iv) Virtual memory
- j) A 32 bit microprocessor has the word length equal to:
- | | |
|--------------|--------------|
| i) 2 bytes | ii) 32 bytes |
| iii) 4 bytes | iv) 8 bytes |

1½x10

UNIT-I

- Q.2 a) Why a binary number system is preferred for computers? Explain with reason.
- 5**
- b) Perform the following:

i) $(798.5)_{10} = ()_{16} = ()_8 = ()_2$ ii) $79 - (32)$ **5x2**

- Q.3 a) Generate the Hamming code for data bits 1101. **5**
 b) Write short notes on:
 i) Non weighted code
 ii) Floating point numbers **5x2**

UNIT-II

- Q.4 What are universal gates? Simulate NAND and NOR gates to all gates. **15**
- Q.5 Simplify the following using K-map.
 a) $F(A, B, C, D) = \sum(0, 3, 5, 6, 9, 11, 13, 14, 15)$
 $D(A, B, C, D) = \sum(1, 2, 8)$
 b) $F(w, x, y, z) = \pi(1, 5, 7, 9, 10, 12, 14)$ **7½x2**

UNIT-III

- Q.6 What is the limitation of JK flip-flop? How can we overcome from them? Obtain the logic diagram of master slave flip-flop using NAND gates. **15**
- Q.7 Explain the followings:
 a) Multiplexers
 b) Full adder
 c) Decoder **5x3**

UNIT-IV

- Q.8 What is a cache memory? Explain various types of mapping techniques in detail. **15**
- Q.9 What is parallel processing? Explain in detail. **15**

- Q.8 "A good leader is not necessarily a good manager." Discuss this statement and compare leadership with management. **15**
- Q.9 Write notes on:
- a) Qualities of a good leader. b) Autocratic leader. **7½x2**

End Semester Examination, May 2015
 BJMC – First Semester
INDIAN GOVERNMENT AND POLITICS (BJ-101)

Time: 3 hrs

Max Marks: **80**

No. of pages: 1

Note: Attempt any **FIVE** questions in all; **Q.1 is compulsory**. Attempt any **FIVE** questions from **Part A** and any **TWO** questions from **Part B**.

- Q.1 Answer **any ten** of the following:
- a) Name the chief minister of Maharashtra.
 - b) Name any three regional parties of Uttar Pradesh.
 - c) How many members are there in Rajya Sabha?
 - d) Who is the head of a Municipal Corporation?
 - e) Define Politics.
 - f) Write down any two eligibility criteria for a Governor.
 - g) 'Indian constitution is flexible in nature'. **True/False**
 - h) 'The members of the panchayat are elected directly by the electorates of the respective territorial constituencies'. **True/False**
 - i) The members of the Rajya Sabha are elected by_____.
 - j) 'The present Lok Sabha is the 16th Lok Sabha". **Yes/No**
 - k) The minimum age to qualify for election to the Lok Sabha is_____.
 - l) The Parliament of India can make use of the residuary powers at all times or only during national emergency.
 - m) The preamble says that the state in India will assure the dignity of the individual. The constitution seeks to achieve this object by guaranteeing equal fundamental rights to each citizen or the right to adequate means of livelihood to each individual.
 - n) 'The president can dissolve the Lok Sabha on the advice of the chief justice of India' **True/False**
- 1½x10**

PART-A

End Semester Examination, May 2015

B. Sc. (N & D) - First Semester

ENGLISH (BND-104)

Time: 3 hrs

Max Marks: **60**

No. of pages: 3

Note: Attempt any **THREE** questions from **Part-A** and **SIX** questions from **Part-B**.

PART-A

- Q.1 Write an essay on **any one** of the following:
 a) Women Empowerment
 b) Gender Sensitization
 c) Bollywood mesmerizing the youth **10**
- Q.2 A friend of yours has been out of station for a month and there was a workshop on enhancement of communication skills held in your college while he/she was away. Write a letter to your friend describing the workshop and your experience with it. **10**
- Q.3 Youth today are very much fascinated with fashion and bollywood. Today youth feel that the change in fashion and movies in bollywood have affected the life style and the culture of the society. Write an article, in 150-200 words, expressing your views. **10**
- Q.4 Read the passage given below and then answers the following questions:

It is reported that the Government is close to finalizing a system of dual pricing for the public procurement of food grains. There would be two basic elements to this system: A fixed minimum support price (MSP) covering the cost of cultivation, as at present, recommended by the Commission on Agricultural Costs and Prices (CACP), and variable procurement prices, at the discretion of the department of food, depending on market. For example, according to a working group of the Planning Commission, over the five year period ending 2001-02, when there was a steep rise in procurement price resulting in accumulation of embarrassing large stock of food grains of over 60 million tones with Government, consumption of food grains in the country was reduced, on this account, by at least five million tones per annum. The new system by assigning a greater role for private trade can improve the efficiency in the distribution of food grains and substantially cut down subsidies, which can help to step up much needed public investment in agriculture. The proposed dual pricing system is a better alternative than total marketization of food grains trade by disbanding altogether public procurement at MSP.

Such a dismantling could lead to a crash in market prices of food grains in years of food harvest. Even though this may take exports competitive and raise domestic consumption of food grains in the short run, it may undermine food security by sapping producer incentives. The experience of green revolution underlines the importance of assured MSP including the farmers to step up their own investment and effort and derive full benefit from available infrastructure.

For the dual pricing system to yield desired results, it needs to be backed by several other policy measures. Since the impetus for crop diversification would be greater in

the infrastructural developed regions like the north-west, this can slow down the growth of food grains output in the country and, in particular, the surpluses procured, unless immediate measures are taken to strengthen public support for irrigation, technology, extension and credit in the rest of the country, especially in the central and eastern regions where there is a large potential as the growth of food grains output has barely kept pace with population growth since the mid-90s. This also calls for more effective public procurement of food grains at MSP in these regions, as farmers have to often sell their produce immediately after the harvest at prices that are lower than MSP. Therefore, dual pricing system can be sustained only through non-price interventions such as infrastructural support for regional dispersal of growth in food grain output.

The new system requires better market intelligence forecasts as well as concurrent analyses on prices and sales in markets in India and abroad.

- a) What are the two elements of dual pricing system for procuring food grains?
- b) How will the above proposed system benefit the nation?
- c) Mention atleast four non-food grain items used by the consumers.
- d) What is the result of ecological degradation in the north-western region of India?
- e) In order to boost the dual system what urgent measures are needed to be taken?

2x5

PART-B

Q.5 Read and correct the incorrect sentences:

- a) Either Mohan or his friend go for the dance classes.
- b) Neither the teachers nor the professors takes the workshop.
- c) Everybody know the answer.
- d) One of the student is making noise.
- e) Half of the pies in gone from the plate.

1x5

Q.6 Use the following vowel in a word and then make a sentence.

/a:/, /u:/, /ae/, /ʌ/, /l:/

5

Q.7 The following sentences have errors. Identify the errors in each line and write the correct sentence:

- a) I will like to discuss about the matter with the boss.
- b) I have a cousin brother.
- c) Please repeat that again for me.
- d) What is your good name.
- e) I met my friend today morning.

1x5

- Q.8
- a) Give the synonyms of the following:
Ability, Cautious, Interrupt, Noble, Opportunity
 - b) Give the antonyms of the following:
Ascent, Freedom, Saint, Usual, Zenith

2¹/₂x2

Q.9 Choose the right prepositions and complete the sentence:

- a) The rat ran _____ (into/in) the hole.
- b) My office is _____ (at /on) the 4th floor.
- c) I have been living in England _____ (Since/For) 2 years.
- d) I saw him driving the car _____ (at/in) the night.

e) The building is _____(beside/besides) McDonlds.

1x5

Q.10 What do you mean by the word 'Active Listening' and how does it benefit an individual?

5

Q.11 Choose the right form of the tenses and rewrite the sentence:

- a) He (drink/drank) the entire glass of water.
- b) I have (seen/saw) him cheating in the examination hall.
- c) He (choose/chose) him the president of the college.
- d) Riya did not (go/went) to the market.
- e) He had already (gone/went) to Manali.
