Vidyanatariksha is a conjugation of the words 'vidya' and 'antariksha'. 'Vidya' means knowledge, information, the basis of creativity and innovation. It is the foundation of technology and envisages the future. 'Antariksha' means 'the sky', the space which we belong to or exist. It can be broken into 'antar' and 'lkshan' which means inner vision. The core promise of 'Vidyanatriksha' thus becomes "The reality of inner vision or root of all knowledge".

Manav Rachna signifies the creation of human beings or individuals with attention to all components of holistic growth. The true essence of Manav Rachna Vidyanatariksha is thus to create human beings who have an inner desire to gain knowledge.

VICE PRESIDENT Message

The education that Manav Rachna International Institute of Research and Studies (MRIIRS) imparts, aspires students, irrespective of their background to put forth their creativity and lay foundations for a community's dreams.

"There is no vision as powerful as the vision of knowledge; there is no penance as the oath of truth, there is no pain as that caused by desire; there is no act that gives more happiness than sacrifice". MRIIRS strives to carve young minds with a bright vision of the future motivated by Integrity, Perseverance and Passion. This ensures that they are mentally wired to make a difference in their workplace. Making every Manav Rachna student a pragmatic and responsible citizen is at the helm of the objective that we as an educational institute strive to achieve. We firmly believe that each student shouldn't be a mere success story but become an incomparable example of achieving self-actualization and being a front runner in all the realms of life.

The Yoga sutra of Patanjali says, "When you are inspired by some great purpose, some extraordinary projects, all your thoughts break their bounds. Your mind transcends limitations, your consciousness spans in every direction and you find yourself in a new, great and wonderful world".

Our biggest competitive edge as a country is our human resources. 71% or 742 Million Indians are below the age of 35. This is a great opportunity not just for the government but for all of us as responsible citizens of India. So, let us "Think in India, "Make in India" and "Make for the World". At Manav Rachna Educational Institutions, we are working on this mission as the business environment demands a new cadre of professionals with a Global outlook, yet a deep-rooted value system stringing from our vast cultural heritage and glorious past.

The program structure, teaching methodology & inimitable industry interaction with a focus on attitude, behavioural skills and global orientation have been the key features of our educational philosophy. Continuous learning is not a choice in today's business environment but a necessity. MRIIRS is committed to updating and revising the course curriculum in sync with the dynamic needs of the business world, thereby bridging the gap between the "desired" & the "produced".

MRIIRS endeavours to create human capital for the industry that is not only suitable for today or tomorrow, but also for times to come. Come and be part of a legacy where students are taught that nothing is unattainable to the one who has the courage and who works hard!

Strategic Mentoring Board

The constantly changing education paradigms, in response to growing complexity of the industry environment today have necessitated academia and industry to join hands. The exceptionally dynamic corporate world expects students pursuing different professional programmes to be well versed with the industry environment. With globalization taking place, the job market has become even more competitive.

The foundation of great institutions rests on three philosophical overtones:

- "Education is not preparation for life; education is life itself." (John Dewey)
- "Thought without action does not have any value and an action without thought is a futile action." (Vivekanand)

the loans through monthly EMI's or can pay in flexible instalments by automatically scheduling their fees using the auto debit option, which pays the instalment on the due date. This can be done through a one-time seamless registration process.

Education loans are offered based on the credit history of the co-applicant and the academic performance of the applicant. Although an in-depth instructional guideline of the loan acquisition process is given on the official website of the banks, MREI makes sure that every student has absolute clarity on the requisition of documents, verification standards and other rudimentary terms and conditions before they apply for the loans. This is attained through an exhaustive counselling session executed by a team of MREI experts.

With rapidly escalating competition in job marketing and a shortage of high-quality, industry-integrated courses like those provided at Manav Rachna, an education loan seems like a highly practical solution. It not only effectively eases the financial burden on parents but also provides reasonable and long-term repayment policies along with tax benefits.
