4. The departments are asked to propose the action plans after every audit as per audit feedbacks.
5. Internal Academic review also involves review of course files. Randomly chosen subjects are reviewed for the detailed review of course files which includes course plan, tutorials, assignments, evaluation and analysis for weak and strong students, pedagogy and various other parameters.

C The student course feedback system includes formative and summative feedback for each course being taught in that semester. This is conducted by the feedback committee. Thus, the feedback is taken twice in a semester.

1. The feedback format of each course ensures that the syllabus coverage, delivery of course material, planning for the course delivery, innovative teaching methodology etc are covered.
2. The formative feedback is taken from all the students for every course being taught, 3-4 weeks after the commencement of classes. This feedback is shared with the respective faculty members.
3. The summative feedback is taken from the students who meet minimum attendance criteria, towards the end of the semester. This feedback also assesses the course outcomes and achievements of course objectives.
4. Student satisfaction survey for generic facilities and curriculum is also conducted.

D. Attendance review of students is done by the attendance review committee thrice a semester.

1. The faculty members teaching individual courses are required to update the attendance everyday on ERP.
2. The strength of students present in each class is monitored on daily basis.

It provides flexibility to faculty members to create different learning environments which can vary from term paper writings, seminars, presentations, field visits to project based learning.</p> <p>University has mandatory summer training modules which are aimed at enhancing of hard and soft skills of the graduates. Departments in their wisdom can conduct these modules during summer breaks or extend them over the semesters for achievement of specific objectives of enhanced skills in a particular area.</p> <p>The University system creates a lot of flexibility for programme leaders and faculty course coordinators to identify the learning needs and accordingly define the course structures or introduce new learning modules.</p>
