

SAHAI RESEARCH LABS EXTENSION CENTRE

INTERNSHIPS OFFERED

Sahai Research Labs has offered paid internships for students. The students can work remotely on these projects. Few of the topics open for prototype development are listed below.

- 1) Motor control application using Arduino
- 2) Threshold detection using Arduino
- 3) Surveillance system using Raspberry -pi
- 4) Image processing on Raspberry-pi
- 5) Real time attendance marking system using machine learning prototyped on Rasp-Pi
- 6) Deep Learning based prototype for cancer detection from images of scans.
