

Dr. Shivani Aggarwal

Professor & Head of Department of Oral and Maxillofacial Pathology at Manav Rachna Dental College

Dr Shivani completed her training from the College of Dental Surgery, Manipal earning her Master's in the specialty from Manipal Academy of Higher Education (MAHE). She is a post graduate teacher and guide with a teaching experience of over 15 years. Her research interests include oral cancer, particularly developing tools for early diagnosis and accurately predict the transformation of potentially malignant oral diseases to oral cancer and, more recently, the role of immune cells in oral cancer. She has proficiency in project design in these areas and mentoring post- and undergraduate students undertaking related projects.
