Delegation from the University of the West of England visits MREI campus

Manav Rachna Educational Institutions and the University of the West of England, Bristol, UK, have a long-standing relationship for collaboration in the areas of Environment & Technology. The UWE Bristol is one of the largest providers of Higher Education in the South West of England and is known for its research in areas such as healthcare and green energy. A delegation of eminent educationists from UWE is visiting the MREI campus on 15th Feb 2018. The delegation was highly appreciative of the academic eco-system and infrastructure at the campus and was glad to note that MREI and UWE are both working towards the common goal of making a difference to the lives of others.

Prof. (Dr.) Sanjay Srivastava (the former VC-MRU & MD MREI) visited the University of the West of England, Bristol (23rd – 27th April 2017). During his visit, Prof. Srivastava had an interaction with the team UWE comprising Prof. Steven West (Hon’ble Vice-Chancellor, President and Chief Executive Officer), Prof. Paul Olomolaiye (Pro Vice-Chancellor and Executive Dean, Faculty of Environment and Technology), Prof. Jane Harrington (Deputy VC and Provost, VCO – Directorate) and Prof. (Dr.) Anil Kashyap (Head of Department of Geography and Environmental Management). During various interactions with the UWE delegates, various agenda points were discussed.
Dr. Jo Barnes, University of West of England, Visited MRU

Dr. Jo Barnes, Faculty of Environment and Technology, the University of the West of England, visited Manav Rachna University on 17th March 2017. Dr. Jo holds the position of Programme Leader, M.Sc. Environmental Management & M.Sc. Environmental Consultancy and Course Director, Air Quality short courses (CPD) and has worked extensively in the area of air quality management, policy and practice. Dr. Jo interacted with Col. Girish Kumar Sharma (Director-Planning & Coordination), Prof. (Dr.) Pradeep Varshney and Prof. (Dr.) B.M. Bahal and discussed the possibilities of future collaborative work. She also made a presentation about the various programmes at the University of the West of England during an interaction with Deans and HoDs of Manav Rachna University and members of Atmospheric and Environmental Sciences cluster. Dr. Jo visited MRIIC and met Prof. B.S. Gill (Executive Director MRIIC) and his team. She saw the demonstration of air filter being developed by MRIIC. She appreciated the innovative concept of removing particulate matter from the atmosphere.
