Roope Sippola, Viivi Anttonen and Teemu, students of B. Tech, Lahti University of Applied Sciences (LUAS, Finland), were awarded completion certificates on successful completion of their project (sept 1, 2016-January 24, 2017) on themes of waste management, urban development and environmental sustainability at Manav Rachna University,

The project was supervised by Prof. (Dr.) Rajat Gera, Department of Management and Commerce and Prof. Meena Kapahi, Department of Applied Sciences. Their guide for the project was Dr. Pia , LUAS, Finland

The project was initiated with meetings with government officials and field study of the rural and urban waste management system, smart city projects, and CSR activities of Faridabad with assistance of ADC office, Chief engineer office (secretariat) and O P Bhalla Foundation. Based on their survey and identified gaps in waste management system in Faridabad district, they subsequently decided to focus on the following sub themes of rural waste management
