Designer
JOURNEY

2 YEARS
It's been two years since we started.
The first year we developed our skills, since then we've been developing games.

3 GAMES
Till now we have published 3 games on playstore
- Duple
- Toppl
- Tile Surf

GAINS
- Duple (500 downloads) - From this game we learned how things work, say publishing, advertising etc.
- Toppl (2000 downloads) - This game helped us in knowing the interests of our audience.
- Tile Surf (5000 downloads) - We got to know where should we advertise the game as in which countries, taking into consideration their e.c.p.m.
Startups In-progress
FACTS
A startup for Facemask And Contactless Temperature Monitoring System
Supported by DST Project NewGen IEDC, MR

FACTS Team
Kashish Kohli, Chemistry
Prince Kaliraman, CST
Dr. Yogita Khanna, Mentor, ECE
Startups Mentored by Faculty Members:
In-progress
JanNeer (Water for Common People)
Nanomaterial Based Portable water Treatment System

Objective

2. Nanomaterial based portable water treatment system

Investigators: Dr. Sudeep Shukla and Dr. Udit Soni

Mentor: Prof. (Dr.) Pradeep K. Varshney

Scheme: NEWGEN IEDC Manav Rachna

Startup Grant: INR 200000

Three Layered Water treatment system
Primary Unit: Simple filter action for coarse particles
Secondary layer: Silver / Zinc impregnated Activated Carbon
Tertiary Layer: Chitosan – IRON nanocomposites
Many more ideas in Pre-incubation stage
